Bar code tapes

Bar code tapes are an essential part of a bar code positioning system and establish the metrological relationship to the mechanical elements. The self-adhesive plastic web is affixed along the travel path and allows the position to be determined with millimeter precision over a distance of up to 10 km.

Standard tapes

- Standardized bar code tapes available in graduated lengths and heights
- The tapes are delivered on rolls
- Extremely high adhesive strength

Configurable bar code tapes

- Individually manufactured bar code tapes between 0 and 10 km
- Possible tape heights between 20 mm and 140 mm
- An entry wizard provides support during the configuration of special tapes
